RAPID TESTS - ALCOHOL & DRUG DETECTION - SALIVA

NON MEDICAL - SELF-TESTING

CASSETTES - PENS - CUPS

Our Products

Alcohol & Drug Detection - Rapid Tests from Saliva are available for the most common drugs, in **Cassettes** or **Pens** and in **Multi-Drug Cups** with multiple substances.

Intended Users

These products are **Non-Medical Solutions** for **Self-Testing** and Public Use, easy to use anywhere, with fast results, designed for **Private Clients** and **Companies** from various fields such as Aviation, Transportation, Maritime, Medical, Chemical, Pharmaceutical, Construction, Logistics, Oil and Gas, Energy, Defense, Public Safety, Emergency Services, Sports, etc.

Competitive Advantages

✓ Speed and ease of use

They can be used in various contexts and in multiple scenarios and fields, due to their accessibility and ease of application, such as events, rapid checks at workplaces and educational institutions, sporadic checks by law enforcement and public safety.

✓ No medical assistance required

No sophisticated equipment or laboratory conditions are required for testing and can be performed by untrained personnel or even users at home. They can be applied in a wide range of situations and by a diverse audience, without requiring medical training or special equipment.

✓ Fast results in 3-10 minutes

Portability and low cost make these tests preferred in situations where resources are limited or when a quick response is required, allowing the necessary measures to be taken quickly.

✓ Custom configuration

The Rapid Multi-Drug Saliva Test Cups are configured using combinations of the 35 available substances.

A cup can contain a maximum of 15 substances and can be customized, depending on the needs of the customers.

✓ Cost-effective

The tests are relatively inexpensive compared to other laboratory methods.
